

**If a child
cannot learn
the way we
teach, we
must teach
the way they
can learn**

DISCOVER

BRIDGE@PRAKRITI

BRIDGE@PRAKRITI is an integral part of our inclusive school system. Children with special needs who need support for their optimum development, find an individualised pathway in this program.

Our children with learning differences are provided language, communication, social skills and physical development support. A skilled team of ABA (Applied behaviour Analysis), Speech, Vocational and Occupational Therapists as well as Special Educators make it a customized support system.

BRIDGE@PRAKRITI assists children to close the gaps in their learning and to integrate them into the mainstream by offering one-to-one sessions within a school setup. We also have regular parent training sessions, to equip parents to support their children.

Empowering parents, children and peers to create high on quality-of-life ecosystems!
